Let The Creativity Of Vin De France Wines Make Your Holiday Season Truly Original

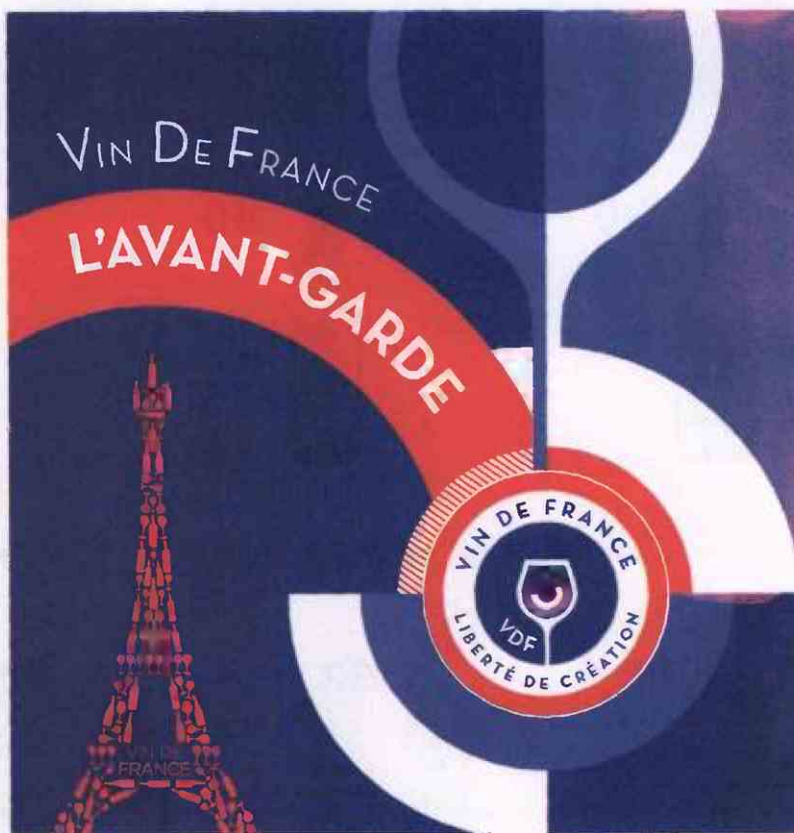

With the end of the year approaching, it's time to celebrate the season in style, and Vin De France wines are your perfect partner. Made with flair and finesse from original French grapes, Vin De France is the new generation of French wine. France boasts a wide number of original varieties, from iconic to exotic, and Vin De France wines are a great way to explore this vinous treasure trove.

Vin De France is all about freedom of choice. Producers can work with classic French grapes as well as other, lesser-known names, sourcing the very best grapes from anywhere in France, blending the same or different varieties from vineyards near and far to create exciting, single varietals or inspired, perfectly-balanced blends.

This scope means growers can perfect the art of winemaking and go off the beaten track, where creativity meets diversity. If you're craving more daring wines with a wealth of drinking pleasure, Vin De France has the answer. Today, orange, pét-nat and natural are the words on wine lovers' lips, illustrating a growing desire for drinking choices that are truly authentic, with a wider range of flavors. Whether you're looking for a special treat or an everyday pour, Vin De France makes it easy to think - and drink - outside the box.

From classic cuisine to more audacious dishes, Vin De France wines can provide the perfect pairing. Styles run from bold and savory to fresh and fruity, making them ideal for sharing with food, friends and family. With multiple hues, flavors and aromas to tempt your tastebuds, there's always a bottle that will delight, guaranteeing pleasure for all.

From relaxed gatherings to more formal events, whatever the occasion, marking it with Vin De France wines makes the moment memorable. Be it a finger food buffet or a seated Thanksgiving feast, Vin De France bottles will hit the spot.

KEEPING IT NATURAL

Made with minimal intervention, Vin De France natural wines make it easy to take the road less traveled, and offer plenty of scope to explore new taste sensations. Made by growers with a commitment to tradition, these naturally delicious bottles will charm wine lovers who prize authenticity. Vin De France natural wines can be crafted from popular, internationally-famous grapes or lesser-known varieties, but they all share one point: their roots are firmly planted in France, their country of origin.

ORANGE IS THE NEW WHITE

Add some originality to your dining table and awaken your palate with a Vin De France orange wine. Also known as skin-contact or amber wine, this style is made from white grapes: it combines the flavors of white varieties with the texture and tannins common to red wine. due to fermenting the grape skins with the pressed juice. The end result is a feisty taste sensation with a bold, rebellious streak that makes a great counterpoint to spicy Asian flavors.
